

AV Service Technician (Commercial)

We are looking for a high energy driven person to fill a Service Technician position. This person will perform onsite service calls as well as remote support service calls. The vast majority of this work is scheduled during normal business hours; however the candidate should know that emergency calls do rarely arise outside of normal business hours.

We believe this would be a good position for someone who has previous commercial AV service, installation or operation experience. This person should have a strong understanding of AV signal flow, exceptional troubleshooting skills and be knowledgeable of data networks and general switch configuration.

If you believe you are a good fit, we would love to hear from you! Please email us your resume to info@peersonaudio.com

Requirements:

- Good understanding of signal flow / able to follow signal flow
- Good understanding of IT networking
- Able to read and understand schematic drawings
- Excellent troubleshooting skills
- Proficient with test equipment such as data cable qualifier, multimeter, cable toner

Ideal qualifications:

- Previous experience in commercial AV integration or service
- Previous experience and/or certification(s) from the following or similar. Smaart, Crestron - NVX, Digital Media, Simple Windows or VTPro, Extron, Q-Sys, Tesira, Vochia, Globalcom, Avixa, Infocomm, RCDD.
- Proficient with soldering and other AV terminations
- Other relatable AV or IT experience

Hours and benefits:

Full time, Company Vehicle, Paid Holidays, Vacation, IRA Matching up to 3%, Dental, 50/50 Health
